

Mia Ciceri

14174 Lake Yale Rd Umatilla, FL 32784 | (352) 630-9215 | mjciceri@gmail.com | [linkedin.com/in/mia-ciceri](https://www.linkedin.com/in/mia-ciceri)

Professional Summary

GIS professional with a Master of Science in Urban Analytics and a bachelor's degree in Geography with a Geospatial Information Analysis Certificate. Experienced building and maintaining geospatial databases, performing spatial analysis, creating professional cartographic products, and developing 3D geospatial models using ArcGIS Pro, CityEngine, QGIS, and Civil 3D. Strong background in data management, coordinate systems, GIS quality assurance, and geospatial visualization.

Education

University of Florida, Gainesville, FL – M.S. Urban Analytics Aug 2024 - May 2026

University of Florida, Gainesville, FL – B.A. of Geography June 2022 - May 2024

Geospatial Information Analysis Certificate | Cum Laude (3.9 GPA)

Relevant coursework: GIS Data Modeling & Analysis | Cartography & Geovisualization | Spatial Analysis | Remote Sensing | Urban GIS | 3D Geospatial Modeling

Experience

Ambitus AI, San Francisco, CA – Independent GIS Contractor May 2026 - Present

- Promoted to the Review Team to edit and approve team member's geospatial deliverables
- Created end-to-end GIS tasks and deliverables used to train AI models in QGIS
- Built, edited, and validated raster and vector datasets while maintaining high GIS data quality standards

Tech Your Impact, Leesburg, FL – Technical Instructor June 2026 - Present

- Guided students through introductory Python, ML, and AI topics and skills in VSCode
- Developed a full-stack web application and interactive dashboard for business operations

Urban AI Lab, Gainesville, FL – Graduate Assistant Aug 2024 - Aug 2025

- Produced demographic maps and geographic visualization projects in ArcGIS Pro
- Managed large geospatial databases and coordinated data allocation across team members

Map and Imagery Library, Gainesville, FL – Library Assistant May 2023 - July 2023

- Inspection of physical maps, digital maps, and remote sensing information (satellite, LiDAR)
- Cataloged hundreds of historical and modern maps into a digital geographic archive

Technical Projects

Term Project, URP6280 – 3D Geospatial Modeling & Visualization

- Developed realistic 3D urban models in CityEngine and produced presentation-ready visualizations

Coursework, SUR3323 – Visualization of Spatial Information

- Created professional engineering site layouts from raw survey data in AutoCAD Civil 3D

Additional Information

Skills, Awards, & Involvement

- ArcGIS | Civil 3D | Python | QGIS | R | CityEngine | ArcMap | Google Earth Engine Coder
- Dean's List (2022-2024)
- Sigma Kappa | UF-Esports | Chinese-American Student Association
